# Katun® Product Brands and Technologies

## **Katun® Performance™ Products**

Katun® Performance™ is our complete line of office automation products that combine our highest quality level with consistent, reliable performance and competitive pricing - and provide excellent overall value.

Katun® Performance™ products meet strict quality guidelines and have been 100% tested and approved according to the Katun 360° Certification process, which includes environmental testing, forward and reverse compatibility testing, model application testing, and component compatibility testing. In addition, all Katun® Performance™ products are warranted to be free from functional defects in material and workmanship for one year and come with the highest level of Katun® technical support.

To locate Katun® Performance™ products, look for the Katun® Performance™ icon  throughout this catalog.

## **Katun® Business Color**

Katun® Business Color products provide excellent color quality - including halftones, image resolution, and gloss - consistent with performance expectations in business color environments. These Katun® toner products provide OEM-equivalent print quality, fusing performance, and yields, and meet or exceed end-user performance expectations in business color applications - where precise color matching is not a primary requirement. For graphics color applications - choose Katun® Performance™ color products.

## **Katun® Access™ Products**

Katun® Access™ is our line of products that offer customers lower prices and dependable quality. These products will perform equivalent to or better than products sold by other major aftermarket companies, and are backed by Katun®'s one-year warranty. Katun® Access™ products offer an exceptional opportunity for price sensitive buyers when the premium quality and overall value of Katun® Performance™ is not required.

Although Katun® Access™ products offer the pricing flexibility required for some price sensitive customers, remember that Katun® Performance™ products always offer the highest levels of quality, service and product support to deliver excellent overall value.

## **Original Products**

Select OEM brand products that Katun® offers to meet certain market needs

## **Fuser Roller Coating Technologies**

**REVOLUTION™ upper fuser rollers** utilize a PFA sleeve coating that is more environmentally friendly than standard spray technology, while still achieving uniform coating thickness and even heat distribution. These fuser rollers provide proper fusing, excellent abrasion resistance and long life, even during extensive copy runs.

**DURACON™II upper fuser rollers** are manufactured with a heat-resistant, nonstick TEFLON® brand coating that includes patented conductive additives for static dissipation. These rollers provide excellent fusing performance, toner release, and long life, primarily in machines using positive-charge toner.

**DURACON™III aluminum copier and printer rollers** feature an electrically conductive PTFE coating system that is the culmination of extensive research and development. The system offers an unequaled balance in terms of coating release and smoothness, as well as patented electrical property formulations and abrasion resistance characteristics.

**ALUMANA™ upper fuser rollers** are manufactured with extremely hard, tough primer and midcoat layers for maximum resistance to wear and abrasion. The ceramic ALUMANA™ coating combines a DuPont-patented polymer blend with reinforcing oxides for enhanced durability. These heavy-duty rollers are specifically designed to meet the demands of hostile fuser station environments and higher-speed machines using either positive-charge or negative-charge toner.

**TRITON™II upper fuser rollers** are manufactured with an advanced TEFLON® brand coating that provides improved fusing performance and nonstick characteristics in comparison to conventional fluoropolymer coatings. Unique static-dissipative particulates within the TRITON™II coating, together with enhanced manufacturing processes, contribute to these rollers' superior abrasion-resistance and excellent toner release. These rollers provide extended potential life in selected machines using either positive-charge or negative-charge toner.

**TRITON™III upper fuser rollers** utilize a unique 3-coat system that blends PFA, FEP and PTFE coatings with additional resins to provide a highly specialized coating specifically developed for the copier roller industry. The key is the internally reinforced basecoat, which provides increased abrasion resistance (durability) without sacrificing excellent release properties. This 3-coat system provides a smoother finished surface than many standard systems, reducing the need to polish most thin-walled rollers, which can be susceptible to damage during polishing.

**TUF/SIL™ upper fuser rollers** are manufactured with a layer of silicone rubber that effectively regulates heat flow to the toner, plus an outermost layer that consists of a specially blended TEFLON® brand coating providing excellent toner release and abrasion-resistance. This combination ensures reduced toner offsetting and improved, more consistent copy quality under certain demanding machine usage conditions. These rollers provide a high-performance, cost-effective solution for selected machines required to consistently produce the best possible copy quality.

**MICROSLEEVE™ lower pressure rollers**, with nonstick PFA sleeves 50, 70, or 100 microns in thickness, provide excellent wear-resistance for improved copy quality over an extended life. A-Series MICROSLEEVE™ lower pressure rollers are designed specifically for machines utilizing lower fuser cleaning rollers. Their unique surface texture reduces toner buildup and improves cleaning efficiency within the fuser station.

All Katun® fuser rollers are designed specifically for their intended applications and manufactured to exacting quality standards, ensuring their excellent performance and long life.

### Fuser Cleaning Roller Coating Technologies

Katun® has introduced unique fuser cleaning roller technologies for machines requiring efficient removal and absorption of excess toner and contaminants, as well as continuous silicone oil lubrication of critical fuser station parts. For many machines, the ideal parts combination for achieving optimum copy quality and maximum parts life includes a specially designed Katun® fuser cleaning roller.

**FIBRA™ fuser cleaning rollers** incorporate a uniform network of special fibers that aggressively remove excess toner and contaminants from the contacted surface. By efficiently depositing toner and contaminants beneath its outermost surface, the unique FIBRA™ network also helps maintain a continuous lubricative flow of silicone oil from the roller's internal tank to critical fuser station parts.

**FIBRA™II fuser cleaning rollers** incorporate a unique configuration of highly heat-resistant fibers to greatly enhance cleaning performance, especially in hostile fuser station environments. Efficient absorption of excess toner and contaminants, together with continuous silicone oil lubrication of critical fuser station parts, effectively reduce parts and service expenses associated with the fuser station.

TEFLON® is a registered trademark of E.I. DuPont de Nemours and Company used under license by Katun® Corporation.

### Personalized Product Program

Katun® offers an extremely cost-effective way for office equipment dealers/distributors to ensure repeat business and strengthen relations with customers. The **Personalized Product program** enables dealers/distributors to provide high-quality Katun® Performance™ imaging supplies (toner bottles and cartridges for use in copiers, printers and facsimiles, inks and masters for use in digital duplicators, and thermal transfer ribbons for use in facsimiles) with their business name and /or logo, plus contact information, so end-users always know whom to call to reorder. For a one-time, nominal set-up fee, Katun® designs and produces full-color labels to customer specifications and applies them to packaging at no extra charge. Only end-user-replaceable Katun® Performance™ products are eligible under the program. Enrollment is simple and easy. Just complete the agreement form and submit it to your Katun® sales representative or visit the Personalized Products page for more program and enrollment information.

# Personalized Product Agreement

## Customer Information

**Customer Number:** \_\_\_\_\_ **Email Address:** \_\_\_\_\_  
**Contact Name:** \_\_\_\_\_ **Phone Number:** \_\_\_\_\_  
**Title:** \_\_\_\_\_ **Fax Number:** \_\_\_\_\_  
**Katun® Representative:** \_\_\_\_\_

### **Customer agrees to:**

- Provide pertinent information, an electronic copy of your company logo, or other desired label artwork, and color specifications for the labels.
- Approve the Personalized Product label proof.
- Pay a one-time set up fee upon approval of the label design. (Ask your sales representative for details.)

### **Katun® agrees to:**

- Create a personalized, full-color label design to your specifications, per the information provided in this form and send a proof for approval within seven days of receipt of this agreement.
- Produce labels printed with the customer's approved design on white label stock, and affix them over the Katun® logo on Katun® Performance™ brand copier toner, printer/fax toner cartridge, digital duplicator ink/master packaging.

---

### **Information for Personalized Product Label**

Please list **only** the information you want to appear on your Personalized Product label.

**Company Name:** \_\_\_\_\_  
**Street Address:** \_\_\_\_\_  
**City:** \_\_\_\_\_ **State/Province:** \_\_\_\_\_ **Postal Code:** \_\_\_\_\_  
**Phone Number:** \_\_\_\_\_ **Fax Number:** \_\_\_\_\_  
**Other:** \_\_\_\_\_

### **Label Artwork**

- **Attach a copy of your company logo and/or any other requested graphic elements.** Artwork may be full color or black and white. We prefer original-quality artwork 4" x 4" (50mm x 50mm) or larger, but will accept a business card or sheet of company letterhead.
- **Please indicate your color preferences.** In the space below, please indicate the color(s) you want to use for all text, your company logo, and any other graphic elements. If appropriate, please supply accurate samples to be matched or specify Pantone or PMS color numbers.

**Color Specs:** \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

## Personalized Product Program Instructions

1. Submit your Personalized Product Agreement along with an electronic copy of your company logo or other desired label artwork to Katun® customer service.
2. Katun® will provide Personalized Product label proofs for your approval within one week from submitting your agreement.
3. Once your signed approval has been received, your orders will be Personalized.
  - Ordering via the Katun® On Line Catalog? Product that can be personalized will include a prompt, "Personalized?" with Yes/No radio buttons. Your default will be set to "Yes." You can override the default by selecting "No" if you so desire. If you wish to change your default setting go to My Account/Personalization Default. Note: defaults are set by user name, not by customer number.
  - Ordering by email or fax? If ordering by email or fax we will label all personalizable product unless you indicate otherwise.
  - Ordering by phone? If you call, your customer service representative will confirm that you are on the Personalized Product Program and personalizable product will be labeled.
4. You will be invoiced for a one-time set up fee.

Standard label sizes are shown below and are produced based on specific package size.

 The Netherlands

Account number: 65.26.91.501  
 IBAN: NL80INGB0652691501  
 SWIFT: INGBNL2A

### General Shipping Information and Product Return Policies

#### Shipping and Handling

Katun® can provide you with alternatives for shipping. We will attempt to select the most convenient and cost-effective carrier for you. However, if you have a preferred carrier, please inform your Katun® Customer Service Representative. Hazardous material shipments will be billed accordingly. A nominal handling charge is incorporated into our shipping costs.

### Product Return Policies

- Katun® **must** preauthorize all returns. For return procedures and a return, contact the Customer Service Department at 31(0) 183-696969.
- Toner, toner cartridges, digital duplicator inks and masters, and thermal transfer ribbons with personalized labels cannot be returned to Katun® for credit unless a valid warranty claim exists.
- Returns and refused shipments are subject to a minimum 10% restocking charge.
- With the exception of warranty claims, merchandise returned more than 90 days from the invoice date will not be accepted.
- Merchandise which has been written on, marked, relabeled, or placed in other than original Katun® packaging will not be accepted.
- All warranty claims submitted to Katun® **must** be accompanied by a completed Distributor Warranty Claim Form (included in this catalog).

5 \_\_\_\_\_  
6 \_\_\_\_\_

#### **FOR KATUN® USE ONLY**

Product Warranty Claim No.: \_\_\_\_\_ Pieces: \_\_\_\_\_  
Received By: \_\_\_\_\_ Date: \_\_\_\_\_

## PLEASE READ AND COMPLY WITH ALL THESE REQUIREMENTS TO EXPEDITE THE PROCESSING OF YOUR CLAIM.

### 1. General Instructions

A completed copy of this form must accompany all product warranty claims. Please indicate date of product delivery for determination of warranty coverage time period. Your feedback is important to the ongoing improvement of Katun® products. Please complete all sections.

### 2. Specific Requirements

If damage (for example, a chip or scratch on a photoreceptor) is noted "out-of-box," DO NOT INSTALL THE PRODUCT. No copy/print samples are required. Installing a product with out-of-box damage could void the warranty.

Include applicable copy/print samples with all claims. If a photoreceptor is suspected to be defective after machine installation, please attach to this form the copy/print samples indicated below. This will allow for a thorough evaluation of the claim. Ensure that neither the form nor copy/print samples will contact the photoreceptor surface during shipment.

**FOR PHOTORECEPTORS USED IN COPIERS**, include:

- (a) Three "sky shot" (open platen; black) copies;
- (b) Three white copies; and
- (c) Three copies of a test pattern.

**NOTE:** If the defect is not visible on the copies indicated above, please attach three copies that clearly show the defect.

**FOR PHOTORECEPTORS USED IN PRINTERS AND PLAIN PAPER FACSIMILES**, include three prints that clearly show the defect.

**IMPORTANT:** The Katun® product warranty does not cover damage by operator, technician, or machine (including rotational scratches, gouges, scuff marks, or line scratches).

### 3. Shipping Instructions

ALL PRODUCT RETURNS MUST BE PROPERLY PACKAGED. This includes packaging in the correct individual product box and in a second container with adequate protective packaging material. All carriers require this.

**NOTE:** Products damaged in transit to Katun® due to inadequate packaging cannot be covered by the Katun® product warranty, and will be returned.

**Ship Technical Evaluation claims, freight prepaid, to the address specifically indicated for this purpose in the "Terms and Conditions" section of the Katun On-Line catalogue and current printed catalogues. Katun® cannot accept responsibility for product warranty claims sent to any other address.**
